

Year 3/4 Burps, Bottoms and Bile Homework

******Make or draw a diagram of a tooth. Label the different parts. Add information about why they are important / what they are made of.

Ask somebody to draw around your body on the back of a roll of old wallpaper. Add the major organs used for digestion and label.

******Read non-fiction books/use the Internet to find out about the digestive system. Write up your findings in a fun and informative way.

Draw a poster to promote healthy eating or good oral hygiene (looking after your teeth and mouth).

Keep a diary of what you (and your family) eat over a period of 7 days. Think carefully about how to organize and keep track of your results.

Design and make a toothbrush that will help to keep your teeth and mouth healthy. You could use different materials to make a giant-sized model or draw and label your idea. Think about how it would be better than your usual toothbrush - colour, design, shape, bristle, handle.

******Create a healthy meal. Think about fat content, salt and sugar.

Make up a song or rap about keeping your body healthy; looking after your teeth; eating healthily or improving your immune system.

Starter
Main course
Dessert

Find out the different qualifications needed to be a dentist, food hygienist, school nurse or chef. Write a brief description of the career steps needed including for example GCSE's, A-Levels or degrees.

Information for children and parents

Well done on starting your homework project!

Over the next half term your task is to complete as many of these 'Burps, Bottoms and Bile!' inspired homework activities as possible. There are three compulsory homework activities that have a * placed next to them that you must complete over the half term. Once you have completed a homework activity, please bring it into school to share with your classmates and teacher. Remember to write your name clearly on each completed piece.
