## From the Chair of Governors

**Easterside Academy currently has 10 people, known as the Governing Body, who challenge Mrs Linacre to make sure the school continues to improve and provides every pupil with wonderful learning experiences.**

We take Mrs Linacre's advice on educational matters because this is her expertise, and constantly work together with her towards improving the School and making sure all the pupils at Easterside Academy are making as much progress as they possibly can and achieve the best they can.

As an Academy, our role has not significantly changed, although we have more responsibilities to do with the staff of the school and also the buildings and grounds.

We take our role very seriously and work as a team to provide a high level of challenge for the school as well as offering support and recognition for the hard work that all the school staff put in every day. Together, we have a good range of skills and expertise; we all share the same commitment and vision: to ensure that the children at our school receive the best education we can provide by working together as a team.

Split into smaller groups and on a one-to-one, we discuss with Mrs Linacre a range of different things. We ask ourselves: *Are there any children that are finding lessons a bit difficult or too easy? What can the school do to change this? Are all the children in the school/class making good/expected progress? Is the teaching and learning at least good or outstanding over time? Other questions: Do we have enough money to buy materials or pay for extra staff to help smaller groups progress? Do we have*

*enough learning space? Are all our children safe and healthy at school so they can learn really well? Are we helping the teaching staff to develop their own careers so they are enthusiastic about teaching our children? Have we got the right staffing structure to help our pupils achieve? We have a lot of decisions to make as governors.*

There are also visible activities you may see us doing in School: job interviews for new teachers; reviewing Mrs Linacre's progress; writing monitoring reports following classroom visits, events and school trips; meeting with teachers or pupils; studying pupil progress data; checking health & safety around the school; speaking to parents and speaking to Ofsted about current trends in the School during an inspection.

We all meet together once a term for a Full Governing Body Meeting and the Finance and Resources Committee meets once or twice a term. Each governor also attends a pupil progress meeting during the year and liaises with a link teacher in relation to the 'area' within school they are responsible for. During the year they will visit the school to carry out monitoring exercises.

From time to time we do have vacancies on our Governing Body and would welcome anyone who may be interested in joining us. If you are interested in finding out more, do ask at the school office to talk to one of us about the role and what it means to become a Governor. We would love to hear from you!

*Chair of Governors*
